MAKING IT

Our wines are made from quality grapes sourced from selected vineyards throughout the Western Cape. The grapes are harvested in February and March at optimum ripeness to ensure the maximum burst of fruity nectar. Standard winemaking practices are followed to produce the red and white base wines. Fresh grape juice is preserved, allowing no fermentation. The final fresh sweetness comes from careful blending of the light, fruity wine and the full, sweet grape juice – resulting in an easy-drinking, low-alcohol wine.

WE HAVE EXCELLENT TASTE

This fruity fresh wine has a delicious ruby red colour. There are lots of fresh blackcurrant aromas on the nose and a burst of darker berry flavours on the palate.

WHO TO INVITE

Enjoy Sweet Red with charcuterie and cheese platters, walnuts, almonds and candied nuts. Chinese meat dishes such as Peking Duck also make a good pairing. When it's time for desserts, try pairing it with dark chocolate or roast fig desserts, cakes or brownies.

WE LOVE TO MIX

Try our cocktails.
