MAKING IT

Our wines are made from quality grapes sourced from selected vineyards throughout the Western Cape. The grapes are harvested in February and March at optimum ripeness to ensure the maximum burst of fruity nectar. Standard winemaking practices are followed to produce the red and white base wines. Fresh grape juice is preserved, allowing no fermentation. The final fresh sweetness comes from careful blending of the light, fruity wine and the full, sweet grape juice – resulting in an easy-drinking, low-alcohol wine.

WE HAVE EXCELLENT TASTE

The strawberry pink colour should be a clue. This wine has lots of strawberry aromas on the nose, and a burst of sweet berry flavours on the palate.

WHO TO INVITE

Try it with fresh fruit platters containing strawberries, watermelon and blackberries. It also goes well with sushi or any fish dish. Finish your meal by pairing it with milk chocolate and berry desserts.

WE LOVE TO MIX

Try our cocktails.
